

Environmental/Sustainability policy

Deliver the right quality at the right time to the customer is Åsljunga Pallen Abs prime goal. We can deliver accordingly to the customer needs by developing the product together with the customer.

As a wooden industry and a consumer of wood, work to ensure that the business is conducted in the most gentle way possible, for the environment and for the employees.

The business shall be conducted and improved in such a way to minimize any negative environmental impacts.

To the greatest extent the raw material shall be from environmental certified foresting. We shall continuously work to increase this volume.

We shall in a responsible way fulfil our commitments towards our co-workers, the society, the environment and costumers.

In order to meet the above requirements and intentions the personal shall be educated and informed.

Åsljunga Pallen shall:

- Give all co-workers access to, and the possibility to affect and develop all quality and environmental documents of the organisation.
- Involve co-workers in the process of development.
- Educate and inform co-workers about the environmental/sustainability and quality work.
- Continuously minimize our environmental impact regarding noise and transportation.
- Raise the consciousness regarding the environment in all co-workers and encourage them to act accordingly in the daily work.
- In a natural way organise the environmental work in order to make it a daily habit for all co-workers.
